No. of Beneficiaries	45
Objectives	<ol style="list-style-type: none">1. To understand and measure level of perception towards the Facilities, Work Environment, Relaxation, Job Performance, Difficulties and Work Life Balance provided for them.2. To find out the interrelationship between the selected Socio Demographic Factors, Facilities, Work Environment, Relaxation, Job Performance, Difficulties and Work Life Balance for the Police personnel.
Summary of the Proceedings	<p>The students of Basavaprabhu Kore Arts Science and Commerce College Chikodi Visited the Chikodi Police station on 15th December 2022. Shri.R.R. Patil CPI Chikodi, enumerated a number of criminal activities that the students were expected to be aware of and also gave them a basic understanding of the role played by the police in maintaining law and order in our daily lives and also gave life style and social conditions of police employees in the society. The students were also tutored on how to file a complaint and the subsequent steps to be followed until the case ended. Other interesting topics covered were filing FIR (First Information Report), role of the law enforcement officers with regard to cybercrimes, recent arrests in the neighborhood. The entire session was very interactive and included very informative discussions on hierarchy in the Police department, jurisdiction, rights and protection given to women, the juvenile justice system, the relationship between advocates and police officers. The first field visit, coordinated by Dr.B.M.Patil, Assistant Professor, proved to be very beneficial to the students who had an enriching learning experience on the practical everyday functioning of the law.</p>

NATURE CLUB

Tour Report

Nature Club members, KLE's Basavaprabhu Kore College, organized one day field visit on 05th March 2023 to **Kanakumbi forest and nearby places** under the title "**Nature and us for Health and Wellbeing**" and the team will lead by Nature club members to create the awareness about forest and nature. In this tour, Totally 35 faculty members, staff and students are participated.

The details of the programme as follows,

1. **Place:** Jamboti and Kanakumbi
2. **Date:** 05-03-2023
3. **Departure time:** from college campus 7.15 am
4. **Route:** Chikodi-Belgavi-Jamboti-Kanakumbi
5. **Return time:** 8.00 pm in the same day

The programme aimed to bring awareness about the forest and wildlife and the importance of protecting nature. The present situation of forest and wildlife are alarming. The students understand this and they realize the birds and animals are struggling with the loss of their habitat. Students, Staff and Faculty members actively participated in the trekking to the forest. Nature Club Convener and Co-ordinator have been involved in the camp. We consult private agency (Third eye trekking agency) to visit the Jamboti-Kanakumbi Forest areas. Nature Club members and faculties have actively involved and successfully complete this programme.

A CERTIFICATE COURSE ON RESEARCH METHODOLOGY

4th July to 18th July, 2023 2-4 PM

Research is a simultaneous process of thinking, studying, analyzing and writing. Social Sciences research is characterized by diversity of theoretical perspectives, methodological strategies, data collection practices and analysis techniques. This has made it always necessary to provide training and orientation on a continuous basis to young researchers to equip them with methodological skills. The social science students lack in this knowledge so, this course intend to give knowledge on research methodology which return help them in their post graduation, pre-Ph.D. coursework and while pursuing Ph.D

The Department of Sociology is organizing a Certificate Course on Research Methodology in Social Sciences from 4th July to 18th July, 2023. This Research Methodology course is organized in collaboration with Centre for Multidisciplinary Research (CMDR), Dharwad. The Course will include various aspects of research methodology and techniques used, in the field of social sciences.

DEPARTMENT OF MATHEMATICS

IN-HOUSE SEMINARS

Odd Semester:- 2022-23

The department conducted in-house seminar for the first semester students on the different topics of the syllabus of I Semester and students gave seminars on the topics of their choices. All the students participated enthusiastically and presented before the gathering.

Objectives:

- To improve confidence level in students
- To enhance the mathematical skills
- To gain the knowledge about mathematical concepts
- To understand the topic thoroughly

The following students presented their seminar topics

Sl. No.	Name	Class	Topic	Sign
1.	Bramhi S. Patil	I Semester	Differentiability	
2.	Komal C. Gangale		Cauchy's Mean Value Theorem	
3.	Srushti R. Savadi		Lagrange's Mean Value Theorem	

No. of Beneficiaries:-40

Out Come: Students improved their knowledge, understand the concepts thoroughly by solving examples on their related seminar topics and developed their mathematical skills through learning and teaching.

Title of the Programme	National Level Webinar and Student Paper Presentation Competition on the occasion of National Energy Conservation Day-2022 on the theme Renewable Energy Resource: Opportunities and Challenges
Date and Time	23 rd December, 2022
Place	Zoom platform
Resource Persons	Dr. Rafiq Mulla Researcher, Swansea University , United Kingdom Jury Members Dr. N. L. Terdale JSS College, Gokak
No. of Beneficiaries	100 and 25 Students presented papers.
Objectives	1. The seminar aims to increase awareness and knowledge about renewable energy resources, their importance, and their potential in meeting global energy demands. 2. The seminar aims to highlight the opportunities available in the renewable energy sector. It may discuss the potential for job creation, economic growth, and investment opportunities in renewable energy technologies. 3. The seminar aims to showcase the latest technological advancements in renewable energy systems
Summary of the Proceedings	The seminar began with welcome speech by Principal Shri. U. R. Rajput, Dr. S. M. Patil introduced the resource person. Followed by presentation of resource person. The speakers highlighted the potential for job creation, economic growth, and investment opportunities within the renewable energy industry. They also emphasized the importance of government policies, incentives, and support mechanisms for promoting renewable energy development. The event also featured a paper presentation competition that attracted the participation of 25 students from various colleges. The competition provided a platform for young minds to showcase their research and ideas related to renewable energy. The presentations covered a wide range of topics, including solar energy, wind power, hydroelectricity, and energy storage technologies.

Programme Report
IQAC Initiative Seminar on
Climate Change – Causes, Impact and Solutions

The “Climate Change”, it doesn’t take as a serious matter. The seriousness lies in the fact that the current CO₂ concentrations in the atmosphere is around 430 ppm or roughly 36 billion tonnes, according to the latest findings by the NASA (USA); while the safe level of CO₂ concentration in the atmosphere is supposed to be 350 ppm. As a result, The Intergovernmental Panel for Climate Change (IPCC) has already warned in this regard in a 2022 report that the global temperatures are set to increase 1.5 °C above the pre-industrial age between 1850 - 1900. A half degree more about global warming would mean substantially more poverty, extreme heat, sea level rise, habitat and coral reef loss, and drought- symptoms of which we are seeing already all across the world and we cannot prevent this unless we act immediately to cut CO₂ emissions deeply. At this point of view, The Department of Botany (UG and PG) and organizing committee decided to conduct the seminar on “Climate Change – Causes, Impact and Solutions” on 19th January 2023. Committee invited Prof. Sameer Majli, Ecologist and Educationist to guide us through the topic more, who I believe works with the motto of, *Think globally and act locally*, especially by involving the youth.

About Resource Person:

He completed his schooling from St. Paul’s High School, Belagavi. Thereafter, he gained his degree in Chemistry from G.S.S Science College, Belagavi. He further went on to graduate as a Food Technologist from The Institute of Chemical Technology, Mumbai. He worked for 10 years in Fruits and Vegetable processing industry. Thereafter, he served as an educationist, academic trainer and counsellor for 15 years. He is presently the Founder President of Green Saviours Association, an organization that has been planting and maintaining trees for 350 consecutive Sundays since April 2016. His team has planted an impressive number of 56,000 trees with a survival of over 75%. Presently he intends to plant 1 million native trees and

plants in and around Belagavi with community participation- the said project also focuses on rural welfare.

The programme commenced from 11.00 am on 19th January 2023. The programme was initiated by the invocation song from Mr. Chethan Hosatti followed by the introduction speech carried out by Mr. Aditya J. Lengade. He introduced the programme resource person, Prof. Sameer Majli and other dignitaries, Prof. U.R. Rajput, Principal, B.K. College, Shri. R.R. Naik, Convener and PG Co-ordinator, B.K. College and Dr. Veerabhadra Swamy A.L., Faculty member, Post Graduate Department of Botany.

Our college Principal, Prof. U.R. Rajput honour the Resource Person, Prof. Sameer Majli by providing a sapling of Krishna Buttercup, a rare variety plant cultivated in our college campus.

About the Krishna Buttercup:

Ficus krishnae, commonly called as Krishna Buttercup, a very variety of *Ficus* cultivated in our campus. Krishna was caught red handed by Mata Yashoda. To escape from punishment, Krishna rolled the butter in a leaf of *Ficus krishnae*. It is believed that the leaves of the tree took the shape of a cup after this incident and even since it remained. This tree is a medium evergreen tree which goes to the height of 40-45 feet. It is basically a variety of *Ficus*, which includes *Ficus retusa*, *Ficus bengamina* and *Ficus elastica* commonly known as rubber plant.

After introducing the resource person, Prof. Sameer Majli, he releases the first volume of the newsletter "Botanica spotlight" of our department.

About the Newsletter "Botanica spotlight":

The main objective to introduce this newsletter is to provide a platform to the faculty and student members of the department to highlight departmental activities and other achievements of the department. Apart from this the recent advances in the field of Botany are highlighted in the present issue.

After the release of department newsletter, the session was continued by Prof. Sameer Majli by speaking about the concept.

He had spoken about their organization that has been planting and maintaining trees for 350 consecutive Sundays since April 2016. His team has planted an impressive number of 56,000 trees with a survival of over 75 %. Presently, he intends to plant 1 million native trees and plants in and around Belagavi with community participation and in association with schools and colleges in Belagavi. He highlighted a few things about the present thinking of our people and its effects on the conditions of our present society. He spoke about flood occur three years back in Chikodi and surrounding areas due to cloud breast. He mentioned

the Western Ghats of India, one of the biodiversity hot spots in our country. 50% of the rain comes from the tree. He discussed about the agriculture pattern of this area and the future plan of plantation of tree in this area. He explained in detail about the significance of the plant cultivation and 1970 situations of association of people with their nature. He clearly says about the present generation thinking that the individuals of this generation want to become independent. People think about to become independent rather than to become doctor, lawyer, engineer, etc. He discussed about the effects of technology in climate change in Belagavi and Chikodi from the last few years. He states that the temperature in this area during winter is approx. 38-39 °C. They suggest that, to overcome these problems we need to cultivate more a number of trees not in the roadside instead of waste lands and other areas. Under his organization help he decided to cultivate 1 lakh trees near or surrounding to Chikodi in the next few days. At the end his talk, Prof. Sameer Majli interacts with teachers and student participants. He strongly supports the students to studying the Botany/Life sciences in the future and he never fails to mention that no grants or other contributions of government to protect the greeneries in our country.

Finally, the programme was ended with vote of thanks from Miss. S. S. Sangane.

Totally, more than 100 students, 8 to 10 faculty members of various departments of our college, media persons (representative) are present in this programme. The programme was compeering by Shweta J. Tirth and Siffa A. Allan, Final year M.Sc. Botany students.

After this programme, at 2.30 pm, Prof. Sameer Majli interacted with teachers in a common staff room regarding the Green Saviours Association and its team work near Chikodi.

Title of the Programme : LET'S WALK TO 'SAVE SOIL'
Organized by : Department of NCC
Date : 7/06/2022
Place : NCC Unit and H-group
No of Cadets : 60

Objectives:

- Soil erosion has been considered as the primary cause of soil degradation because soil erosion leads to the loss of topsoil and soil organic matter, which are essential for the growing of plants. Quantification of soil loss is a significant issue for soil and water conservation practitioners and policy makers.

Summary :

- H group chikodi and NCC cadets of KLE'S Basavaprabhu Kore college chikodi, jointly organized 'Save Soil' special program. More than 60 cadets participated in the program

Department of Mathematics
Organizes
Competition on
THEME: Projects on “Applications of Mathematics”

On the eve of National Science Day 2023, under the theme “*Global Science for Global Wellbeing*” the Department organizes Power Point Presentation competition entitled: Projects on “**Applications of Mathematics**”. The competition was held on 14th February 2023 at 11.00am in the Computer Lab. All semester students are witnessed the event and 12 participants enthusiastically participated and presented their views on applications of mathematics on various mathematical concepts.

Objectives:

- To enhance the knowledge of Mathematics through applications
- Motivate students to inculcate the mathematical concepts through applications
- To understand the applications of Mathematics in day today life.

The details of prize winners are as follows,

SL NO.	Roll No.	Name of the Student	Title of the Presentation	Class	Award
01	29	Mr. Bharamu A. Donge	Applications of Permutations	B.Sc III Semester	First Place
	44	Mr. Kumar M. Hikadi	Mathematics Applications in Science		
	71	Omkar C. Mone	Ancient Mathematics of India and its Applications		
02	33	Daneshwari S. Kolalagi	Applications of Permutations and Combinations in day today Life	B.Sc III Semester	Second Place

Based on the above analysis the result of the event is as follows

- **First Place** : Group 02 average marks 8.66
- **Second Place** : Group 01 average marks 8.33
- **Third Place** : Group 05 average marks 7.33

Out Comes:

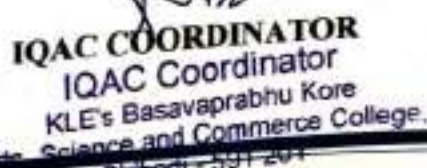

- Students understand the mathematical concepts with its applications
- This event helps students to boost their ability to think mathematical concepts through applications
- Motivated the students to understand how mathematics is applicable in day today life

Report on Videography Competition on "Biology in My Camera"

- ↓ **Name of the Programme** : Videography Competition on "Biology in My Camera"
- ↓ **Date and Time** : 14 February 2023
- ↓ **Number of participants** : 20 Students (10 groups)
- ↓ **Objectives**
 - ✓ To create interest in the subject of biology
 - ✓ To unveil the talents of students in making videos and to inflate presentation skills
 - ✓ To use the power of audio-visual medium blended with the creativity of young minds to clear the difficult concepts of biology
 - ✓ Create awareness on biodiversity, animal behavior which gets students closure to nature

↓ **Programme**

Biology is the scientific study of life. It is a natural science with a broad scope but has several unifying themes that tie it together as a single, coherent field. Biology encompasses diverse fields, including botany, conservation, ecology, evolution, genetics, marine biology, medicine, microbiology, molecular biology, physiology, and zoology. To clear the concepts and drag the interest of students a unique programme called Biology in My camera- Videography competition was held on 14/02/2023 by Department of Zoolofy. B. Sc students made mini videos and presented skillfully on different concepts of the Biology. Prf. R..R Naik HOD Dept of Botany, Prof Aditya Legande, Lecturer PG Dept. of Botany and Prof Anand, Asst. Professor of Physics judged the event. Principal U R Rajput presided over the event and appreciated the students for the effort of students. Dr. S. I. Puranik and Shri V.A Kulkarni organized the event.

4 Prize Winners

Sl. No.	Name of the student	Class	Prize
1	Mr. Nagesh A Kagawade and Sourabh A Rendale	B. Sc II Year	I
2	Mahantesh G Devanagol and Bhimarav Sajane	B. Sc II Year	II
3	Madiha M Mulla and Poonam B Malage	B. Sc II Year	III
4	Kavita Jadhav and Rajashri Tirodkar	B. Sc II Year	Consolation
5	Meenakshi G Naik and Sangeeta K Bombalwade	B. Sc II Year	Consolation

4 Outcome

- ✓ The competition created interest in different concepts of Biology amongst the students
- ✓ The competition gave the platform for the students to unveil their talents by showcasing the videos shot by them
- ✓ This also created a way to understand the difficult concepts of biology by the power of audio-visual medium
- ✓ Created awareness on biodiversity, animal behavior to save planet earth

TRENDS IN LIFE SCIENCES-10

What is Meant by Trends in Life-Science??

Trends in life science is defined as the using new technology and research methods in the life science field.

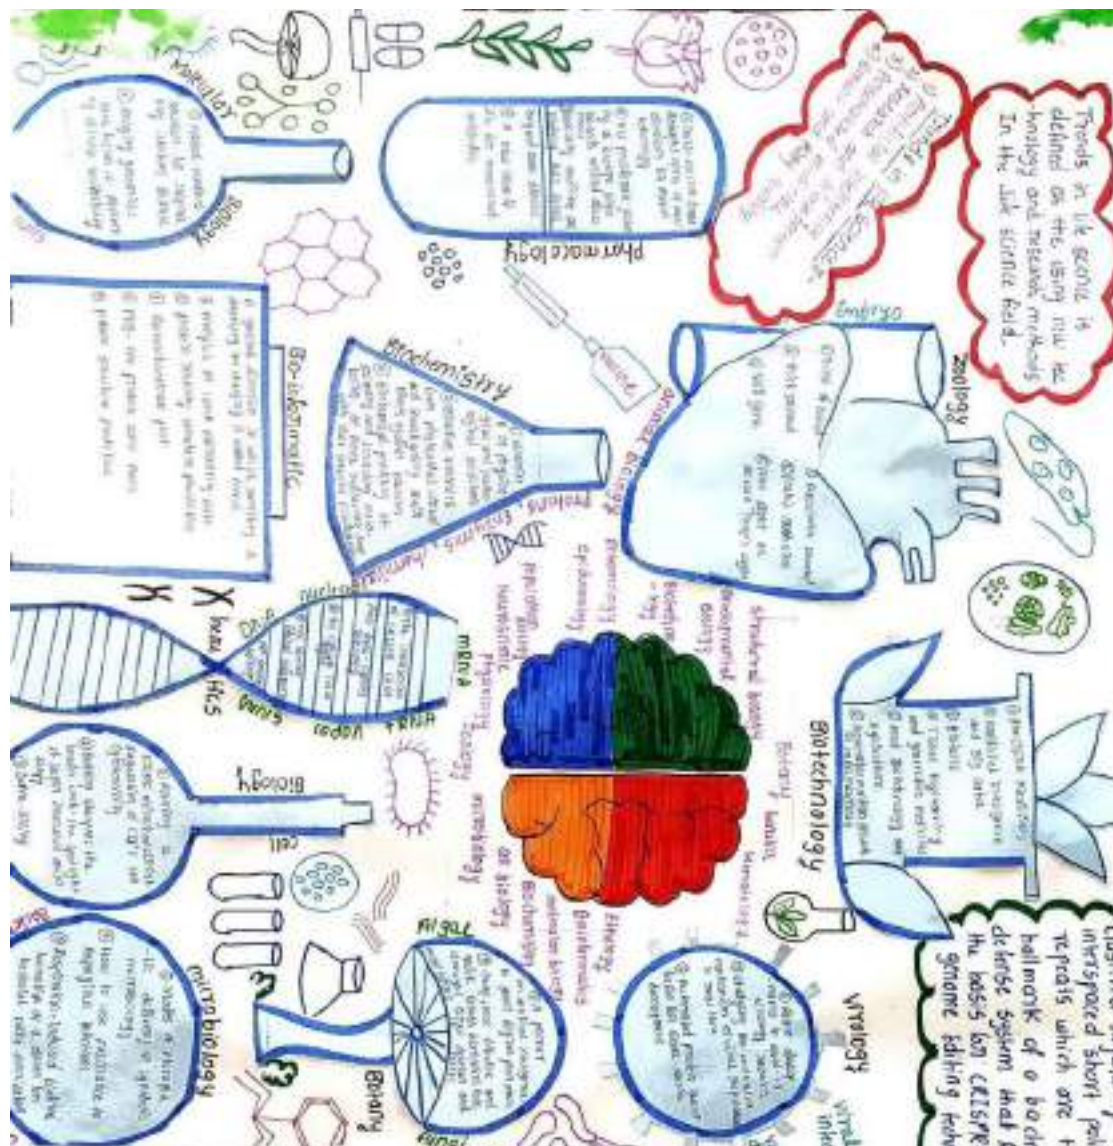

Clustered regularly interspaced short palindromic repeats which are the hallmark of a bacterial defense system that forms the basis for CRISPR-Cas9 genome editing technology.

Artificial Womb

How mRNA vaccines work

- 1) mRNA vaccine development
- 2) mRNA with non
- 3) use starts antigen production
- 4) Antibody production
- 5) mRNA vaccine to synthesize

Agricultural biotechnology [Agriotech]

Introduction to Agricultural Biotechnology

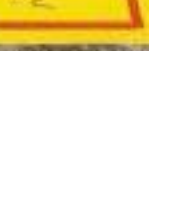

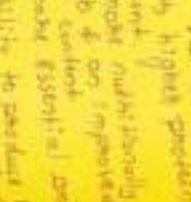

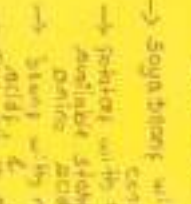

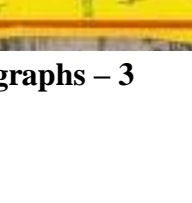

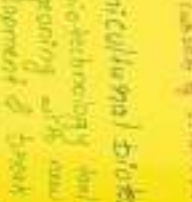

Agricultural biotechnology is the use of the scientific knowledge based on the understanding of life to improve crops & animals that are not possible with conventional breeding alone.

Scientific tools & techniques in Agricultural Biotechnology

- Genetic engineering (transgenic)
 - Molecular cloning
 - Recombinant DNA
 - Tissue culture
 - Transgenic breeding
 - Mutagenesis
 - Polyploidy
 - Sexoplast factor
 - Cell cultures
 - Transposons
 - Gene banking
 - Vaccines etc.

Why is agricultural biotechnology important?

- In a world where 80 million people living mostly in rural areas go hungry every day, food demand is growing steadily in the next 30 years.
- Arable land is limited, advances in agriculture are critical if we are to produce enough to promote growth & development in a socially desirable & environmentally sustainable way.

Future of Agricultural Biotech
 The agricultural biotechnology sector is rapidly expanding with new innovations, development of smart farming, offering even more exciting solutions to some of the world's biggest problems.

Conclusion

Some of the products & processes that are adapted by agricultural biotechnology are a good model of natural laws. To the right of above consideration it is necessary that the use of biotechnology should be used properly and only for beneficial purposes.

HUMAN MICROBIOME

Trichosporon - Hair

E-coli - Intestine

Haemophilus - Throat

Streptococcus Viridans - Throat

Staphylococcus haemolyticus - Skin

Helicobacter Pylori - Stomach

Candida Albicans - Mouth

Dysbiosis - Imbalanced gut diversity

Healthy - Balanced gut diversity

METAGENOMICS

Handwritten Notes:

- Upper part of our intestine can be retained for their long time in the gut to break up - carbohydrates.
- Staphylococcus aureus can be retained for their long time in the gut to break up - carbohydrates.
- Antibiotics can kill the good bacteria in the gut.
- SCFA (Short Chain Fatty Acids) are produced by the bacteria in the gut and are important for gut health.
- Helicobacter pylori is a bacterium that colonizes the stomach.
- 30% - 40% of the human microbiome is different from bacteria in the rest of the world.
