COLLEGE, CHIKODI – 591 201.

(Accredited at 'A' with 3.26 CGPA in 3rd Cycle of A & A)

DEPARTMENT OF ENGLISH

OBJECTIVES OF THE DEPARTMENT

The following are the well defined objectives of the Department.

1. To motivate the students to learn English language.
2. To make the students to realize the importance of learning English.
3. To improve the students' Communication Skills to face global challenges.
4. To highlight increased importance of English language as the one link language of the world and its role in the context of globalization.
5. To provide an exposure to various cultures through the study of literatures and thus promote appreciation and understanding of other communities.
6. To open up more career opportunities by taking the knowledge of English language and literature closer to the real life and serve the society at large.

These objectives are set because:

1. Most of the students are from rural background and studied up to 10+2 in vernacular language. They have poor English Language and Communication Skills. So, the objective 'To motivate the students to learn English language' is set.
2. 'To make the students to realize the importance of learning English' is set because most of the students enrolled for all the UG classes are of the opinion that they could not learn English as it is difficult to understand.
3. Our students are lagging behind in facing the global challenges and are not able get jobs where English is must. To make them competent and to enhance their employability, the third objective 'To improve the students' Communication Skills to face the global challenges' has been specified.
4. Though we are in the global village, our students are still in the local conditions. They do not know the importance of English in the GLO-CAL conditions. So the objective 'To

highlight increased importance of English language as the one link language of the world and its role in the context of globalization' is set.

5. Our students are not known to cultural backgrounds of outside world. By studying the literature in English, they can be exposed to. This is the reason behind setting the objective 'To provide an exposure to various cultures through the study of literatures and thus promote appreciation and understanding of other communities'.
6. English is the World Language and it provides ample job and career opportunities everywhere and anywhere. So, to make our students compete with communicative skills necessary to face the real life problems, the objective 'To open up more career opportunities by taking the knowledge of English language and literature closer to the real life and serve the society at large' has been set.

On the basis of these objectives, all the regular academic activities of the Department are planned and executed throughout the year.
