DEPARTMENT OF CHEMISTRY
Objectives of the Department

- To provide high quality and relevant education in the field of Chemistry
- To enable the students to understand and use of chemistry language.
- To develop an appreciation of chemistry and its application in daily life.
- To promote an awareness of the social, economic, environmental and technological implication of chemistry.
- To demonstrate skills and competencies to conduct simple scientific experiments in Chemistry.
- To encourage the students to pursue higher studies in chemistry with greater confidence.
- To motivate students to become responsible citizens in a changing world.
- To provide a broad foundation in chemistry that stresses scientific reasoning and analytical problem solving with a molecular perspective.
- To expose the students to a breadth of experimental techniques using modern instrumentation of chemistry.
- To acquire a foundation of chemistry of sufficient breadth and depth to enable students to understand and critically interpret the primary chemical literature.
- To create awareness among student community regarding hazardous chemicals.
- To increase the usage of green chemicals.
