Bachelor of Science (B.Sc)

OUT COMES OF LEARNING CHEMISTRY

LO₁ : Understand the importance of the elements in the periodic table including their physical and chemical nature and role in the daily life. Understand the concept of chemistry to inter relate and interact to the other subject like physics, biological science etc.

LO₂ : To handle critical thinking and scientific inquiry in the performance, design, interpretation and documentation of laboratory experiments at a level suitable to succeed at an entry-level position in chemical industry or a chemistry Post-Graduate program.

LO₃ : Achieve the skills required to succeed in the chemical industry like cement industries, agro product, Paint industries, Rubber industries, Petrochemical industries, Food processing industries, Fertilizer industries etc.

LO₄ : To understand theoretical concepts of instruments that are commonly used in most chemistry fields as well as interpret the data generated in instrumental chemical analysis and gained the theoretical as well as practical knowledge of handling chemicals. Also they expand the knowledge available opportunities related to chemistry.
